VOLUME 4 (1990)
TABLE OF CONTENTS

Number 1

Evolution of the NS genes of the influenza A viruses. I. The genetic relatedness of the NS genes of animal influenza viruses ..... *K. Nakajima, E. Nobusawa, T. Ogawa and S. Nakajima* 5

Evolution of the NS genes of the influenza A viruses. II. Characteristics of the amino acid changes in the NS1 proteins of the influenza A viruses ..... *K. Nakajima, E. Nobusawa and S. Nakajima* 15

Induction of an ATP-polymerizing enzyme in TMV-infected tobacco and its homology to the human 2′-5′A synthetase ..... *N. Sher, O. Edelbaum, Z. Barak, G. Grafi, Y. Stram, J. Raber and I. Sela* 27

In-vitro translation of cucumoviral satellites III. Translational efficiencies of cucumber mosaic virus-associated RNA 5 sequence variants can be related to the predicted secondary structures of their first 55 nucleotides ..... *M.T. Steen, J.M. Kaper, C.W.A. Pleij and J.N. Hansen* 41

Physical mapping of two temperature-sensitive adenovirus mutants affected in the DNA polymerase and DNA binding protein ..... *D.J. Roovers, C.S. Hamish Young, H.L. Vos, and J.S. Sussenbach* 53

A possible approach to enrich cDNA yields with full-length molecules ..... *V. Zaslavsky and T. Molad* 63

The effect of peptides containing the arginine-glycine-aspartic acid sequence on the adsorption of foot-and-mouth disease virus to tissue culture cells ..... *B. Baxt and Y. Becker* 73

Distribution of mouse mammary tumor virus-related sequences does not correlate with the taxonomic position of their hosts ... *T.V. Golovkina, A.T. Tikhonenko, N.S. Vassetzky III, B.I. Sheftel and A.V. Gudkov* 85

Conference Report: Molecular biology of retroelements ..... *H. Will and R. Hull* 93

Number 2

In-vitro synthesis of functional varicella zoster and herpes simplex viral thymidine kinase ..... *R. Mahalingam, G. Cabirac, M. Wellish, D. Gilden and A. Vafai* 105

RNA pseudoknots: Translational frameshifting and readthrough on viral RNAs ..... *E.B. ten Dam, C.W.A. Pleij and L. Bosch* 121

Molecular analysis of structural protein genes of the Yamagata-1 strain of defective subacute sclerosing panencephalitis virus. I. Nucleotide sequence of the nucleoprotein gene ..... *K. Komase, T. Kasaoka, Y. Yoshikawa, T.A. Sato and K. Yamanouchi* 137

Molecular analysis of structural protein genes of the Yamagata-1 strain of defective subacute sclerosing panencephalitis virus. II. Nucleotide sequence of a cDNA corresponding to the P plus M dicistronic mRNA ..... *Y. Yoshikawa, H. Tsuruoka, M. Matsumoto, T. Haga, T. Shioda, H. Shibuta, T.A. Sato and K. Yamanouchi* 151

Molecular analysis of structural protein genes of the Yamagata-1 strain of defective subacute sclerosing panencephalitis virus. III. Nucleotide sequence of the hemagglutinin gene ..... *K. Komase, T. Haga, Y. Yoshikawa, T.A. Sato and K. Yamanouchi* 163

Molecular analysis of structural protein genes of the Yamagata-1 strain of defective subacute sclerosing panencephalitis virus. IV. Nucleotide sequence of the fusion gene ..... *K. Komase, T. Haga, Y. Yoshikawa, T.A. Sato and K. Yamanouchi* 173

Viewpoint: Is TNF involved in the progression of AIDS? ..... *N. Kobayashi, Y. Hamamoto and N. Yamamoto* 183

Number 3

Sequence of the 3′ half of the Murray Valley encephalitis virus genome and mapping of the nonstructural proteins NS1, NS3, and NS5 ..... *E. Lee, C. Fernon, R. Simpson, R.C. Weir, C.M. Rice and L. Dalgarno* 197

Cloning and mapping of the potato virus Y genome and its in vitro expression ..... *M. Karchi, I. Sela, O. Edelbaum, A. Ori, B. Raccah, A. Rosner and Y. Stram* 215

Cell culture amplification of a defective Marek's disease virus ..... *J.K. Carter and R.F. Silva* 225

Two-step transformation of rat 3Y1 cells by the adenovirus E1A and E1B genes ..... *K. Tsutsui, E. Hara, S. Nakada and K. Oda* 239

A comparison of the nucleotide sequence homologies between isolates of the Andean and ordinary strains of potato virus S and their relationship to other carlaviruses ..... *G.D. Foster, B.M. Meehan and P.R. Mills* 257

Update and comparison of the immediate-early gene DNA sequences of two pseudorabies virus isolates ..... *A.K. Cheung, Č. Vlček, V. Pačes and M. Schwyzer* 261

Viewpoint: Computer analysis of antigenic domains and RGD-like sequences (RGWG) in the E glycoprotein of flaviviruses: An approach to vaccine development ..... *Y. Becker* 267

Number 4

Sequence analysis of the leader RNA of two porcine coronaviruses: Transmissible gastroenteritis virus and porcine respiratory coronavirus ..... *K.W. Page, P. Britton and M.E.G. Boursnell* 289

Identification and localization of *vpr* gene product of human immunodeficiency virus type 1 ..... *A. Sato, H. Igarashi, A. Adachi and M. Hayami* 303

Detection of human papillomavirus (HPV) type 16 and 52b in cervical cancer tissues by Southern blot hybridization and polymerase chain reaction (PCR) ..... *N. Yaegashi, H. Yajima, K. Shikano, R. Konno, S. Sato, K. Noda and A. Yajima* 313

Expression of human immunodeficiency virus type 1 *gag* gene using genetically engineered herpes simplex virus type 1 recombinants ..... *A. Rösen-Wolff, K. Raab, L. Zöller, G. Darai, J. Eberle and F. Deinhardt* 325

Polymerase chain-reaction-mediated cloning and expression of the coat protein gene of potato virus Y in *Escherichia coli* ..... *T. Hataya, T. Sano, K. Ohshima and E. Shikata* 339

Molecular cloning and characterization of retrovirus-like intracisternal type A particle genes (IAP) present in the Chinese hamster genome ... *M. Servenay, J.J. Kupiec, J. Peries and R. Emanoil-Ravier* 351

Investigation of the 5′ terminal structures of genomic and subgenomic RNAs of potato virus S ..... *G.D. Foster and P.R. Mills* 359

Integrated defective replication units of hepatitis B virus ..... *P. Schranz, H. Zentgraf and C.H. Schröder* 367
